

PRAGATI MAHAJAN

BSc Artificial Intelligence and Machine Learning (Final Year)

Email: pragatim410@gmail.com | Location: India

OBJECTIVE

Detail-oriented and motivated final-year student in Artificial Intelligence and Machine Learning with a strong foundation in data analysis, machine learning, and Python programming. Seeking an opportunity to apply technical and analytical skills in real-world projects and contribute to organizational growth.

EDUCATION

Bachelor of Science in Artificial Intelligence and Machine Learning

Final Year

TECHNICAL SKILLS

- Programming: Python
 - Machine Learning: Regression, Classification (basic understanding)
 - Data Analysis: Pandas, Matplotlib
 - Concepts: Data Preprocessing, Exploratory Data Analysis
 - Tools: Jupyter Notebook, Excel
 - Additional Skills: Digital and Media Marketing
-

PROJECTS

Student Performance Prediction

Developed a machine learning model using regression techniques to predict student performance based on study hours.

Netflix Data Analysis

Performed exploratory data analysis to identify trends and patterns. Visualized insights using graphs and charts.

Spam Email Classifier

Built a basic Natural Language Processing model to classify emails as spam or not spam.

Image Classification Model

Implemented a simple deep learning model using TensorFlow for image classification tasks.

CERTIFICATION

Digital and Media Marketing – MKCL

STRENGTHS

- Strong analytical and problem-solving skills
- Quick learner with adaptability to new technologies
- Ability to work independently and in a team
